6 advanced Excel charts that show variance in financial reporting: <https://youtu.be/DeXAetEpycU>

Special offer

I have two courses on creating Excel chart templates that offer downloadable templates and videos on how to use them. The examples in the session are drawn from these templates.

The regular price for the two courses is \$198.00 USD. On my site I offer a special bundle price of \$149.00 USD. **As part of the Excel Virtually Global conference, until August 31, 2020 I am offering the two-course bundle for only \$99.00 USD!** It's like getting one of the courses for free.

You can only get this special deal by using this link: [Special Deal](#).

You can click on the course images above to see the content of each course.
